[EMB] EMBROIDERY

The most popular decoration technique, embroidery uses thread and stitches to recreate a logo with dimension and detail. The skill of creating the 'roadmap' for the embroidery machine to follow is called digitizing and enhances the quality of the finished logo. With more than 40 years of experience, Vantage has earned its reputation as the best embroiderer in the customized logo apparel industry.

[NO MINIMUMS]

Our Single-Piece Hub makes it efficient to embroider small orders on demand

[VOLUME CAPACITY]

More than 1200 embroidery heads for fast fulfillment of any size order [72-HOUR STANDARD SERVICE] With approved art on file

Customize your order with specialty threads or individual monogramming

[SQ] SEQUIN EMBROIDERY

Add a little bling to your logo with sequin embroidery. This eye-catching specialty embroidery technique involves sewing individual sequin discs to a garment or cap with embroidery thread. Onecolor sequin can be used in a design in combination with multiple embroidery thread colors.

[LOW MINIMUMS]

New art orders and re-orders are just 12 pieces

[EASY CARE]

Unlike some bling, sequins are machine-washable and embroidered to stay on

[MULTI-MEDIA OPTIONS]

Use sequins alone or in combination with traditional embroidery

Choose from 8 sequin embroidery colors

[LA] LASER APPLIQUÉ

Vantage offers high-tech, laser cut appliqué embellishment that can be used to produce everything from classic lettering typically associated with schools and sport teams to fashionable logo designs in single or multiple layers. Laser decoration is an easy and visually exciting way to increase the value of branded apparel. When used strategically in full-chest sized designs, applique can even reduce overall logo run costs.

[HIGH PERCEIVED VALUE]

Applique embellishment turns a basic sweatshirt into a commemorative item

[MULTIMEDIA OPTIONS]

Try different fabrics in a multi-layer design, or combine with embroidery and/or laser etching

[TECH APPLIQUÉ]

This creative laser option uses tech appliqué fabric to outline lettering or simple logo designs. You can choose a matching or contrasting tackdown stitch color to create a variety of looks. Tech appliqué can also be used as an underlayer to another fabric \to boost the logo and add dimension.

IRA1 REVERSE APPLIQUÉ

To achieve this fashion look, we use the laser machine to cut through the garment surface, revealing a layer of appliqué placed below. For best results, we recommend this technique on our fleece garments using cotton rib.

[UNIQUE EMBELLISHMENT]

Design something totally unexpected with this specialty applique technique

[PRE-DESIGNED FONTS]

If your logo font is not ideal for this technique, we'll recommend one of our pre-designed font layouts

[MULTIMEDIA OPTIONS]

Combine reverse appliqué with traditional embroidery and/or standard laser appliqué

[TP] LASER TECH PATCHES

This technique produces an upscale branding option typically used for our jackets and pullovers. The logo is etched on the tech fabric, which is then sewn directly on the garment. Logos have a tonal mark on the patch.

[SMALL DETAILS]

Using our laser, Vantage can achieve details as fine as .3mm

[COMPLEMENT YOUR LOGO]

Patches are available in 11 stock colors and can be designed in a variety of simple shapes

Pink

[LE] LASER ETCHING

This tonal decoration process uses laser technology to 'etch' or 'burn' a mark on the fabric surface to create a logo design. The end result differs by fabric, but is always a precise, clean mark that offers a unique, upscale look. Laser etching is best on medium-shade, smooth fabrics.

[NO MINIMUMS]

Laser etch any size order starting at just one piece

[EASY TO QUOTE]

Pricing is the same for any logo up to 36" inches

[UNIQUE PLACEMENT ZONES]

Etching allows your logo to go over zippers, pockets and seams

[MULTIMEDIA OPTIONS]

For more visual impact, combine with traditional embroidery and/or laser appliqué

Combine laser etch with appliqué and/or embroidery to achieve a multi-media effect

[HT] HEAT TRANSFERS

Printed heat transfers provide a weightless decoration option for performance garments and lighter weight fabrics. Since transfers can be printed ahead and applied in smaller runs, they provide an economical solution for program business requiring complex, colorful logos.

[BORDERLESS PRINTING]

Our transfers achieve small details and crisp text without clunky borders

[LOW MINIMUMS]

Printed transfers are perfect for smaller runs where screen printing would be cost prohibitive

[DMT] DIE-MOLD TRANSFERS

An upscale option for adding texture and dimension to brand logos, die-mold transfers are great on performance garments or for larger logos with lots of detail. Minimum 300 pieces.

PANTONE® MATCHING EXQUISITE DETAIL WASH TESTED

We offer spot-color and reflective heat transfers

[SP] SCREEN PRINTING

Arguably one of the most affordable ways to get a message to the masses, screen printing involves running inks through a fine mesh screen to create a design. Multiple screens are used to apply one color at a time.

[SCREEN PRINT METHODS]

Spot Color • Spot Color with Distress 4-Color Process • Simulated 4-Color Process • Neon Crystallina • Tonal Printing • Vintage Soft Hand

> [EVENTS & HOT MARKETS] We specialize in high-volume capacity and quick deliveries

[PRINT ON PERFORMANCE GARMENTS] Quality printing on polyester and synthetic fabrics [CPSIA COMPLIANT]

We apply tracking labels for youth garments

WHICH TECHNIQUE IS BEST FOR YOUR LOGO?

Spot-color printing allows for PMS color matching and is best for achieving a clear, vibrant print. Distressed printing is achieved through the use of an art filter and offers good color with a slightly broken-in, aged look. Vintage soft-hand produces prints with a washed-down appearance and vintage quality. Exact color matching cannot be achieved with vintage soft-hand, and print colors will vary based on garment color.

[DP] HI-DEF DIGITAL PRINTING

This direct-to-garment process is a fast and affordable solution for printing low quantity runs and single piece t-shirts on demand. State-of-the-art equipment produces vibrant prints with unprecedented quality.

[NO MINIMUMS]

Drop-ship just one piece. Ask about 24-hour service for programs.

[UNLIMITED COLORS]

Pricing is based simply on design size, small or large, so logos with high color counts or complex photorealistic images stay in budget.

[ECO-FRIENDLY]

Designs are printed with eco-friendly, water-based inks.

Get vibrant prints and crisp detail on white, black, and colors

Digital printing is only available on styles 0290, 0291, and NLEV3600. See pgs. 110 & 111.

VARSITY "ADDITION"

Design a special edition fleece by adding varsity stripes at the sleeve. For an upscale modern prep look, we recommend using our Premium Cotton Fleece Collection on pages 74-75. Double-stripe design can be selected in one color from our stock color options shown here.

> Stripe Colors (100% poly grosgrain): White, Natural, Deep Maroon, Vegas Gold, Orange, Red, Purple, Royal, Berry Pink, Black, Navy Minimum: 24 pieces

Add \$10.00 per garment for single sleeve placement. Add \$20.00 per garment for double sleeve placement.

CONTRACT DECORATION

Did you know you can get Vantage's award-winning decoration on products and brands we don't carry in our in-stock collection? Vantage operates three contract decoration facilities across the US, and has established shipping arrangements with many of the industry's blank apparel providers. Decoration pricing for 3rd-party supplied goods is different than what's provided in this catalog. Contact your sales representative for more info.

MAKE IT YOUR OWN

with easy in-house custom options

As a vertical manufacturer, Vantage has the capability to customize stock products to create a designed-just-for-you look. In many cases, minimums are just 24 pieces!

PRIVATE LABEL OPTIONS

Create a collection or get extra brand exposure with your unique private label. Vantage offers several options to private label our apparel.

HEAT SEAL TRANSFERS FOR TAGLESS ITEMS

Private label heat seal transfers are a great option for customizing our tagless garments. Promote your own brand without losing the comfort benefit of tagless labeling. Minimum order is only 72 labels with a low 12-piece minimum to apply.

WOVEN LABELS

Custom woven neck labels can be developed for a 1000-piece minimum label order and a low 24-piece minimum to apply. Vantage will inventory your extra labels for future orders.

PRINTED LABELS FOR TEES

Pad printed labels are an economic way to create tagless private labels for your t-shirt orders. Labels can be printed in one or two colors, using black, grey or white ink. Minimum order is 600 pieces.

CUSTOM ADD-ONS

EXTERNAL WOVEN LABELS

Reproduce logos with the smallest of details with retail-inspired external woven labels. Available in a variety of die-cut and tab shapes for your chest, hem, back yoke or cuff placements. 300 piece minimum, apply as few as 24 at a time.

CUSTOM ZIPPER PULLS Rubber molded zipper pulls create value-added branding for your jacket and pullovers. 1000 piece minimum, apply as few as 24 at a time.

CAP & TEE COMBO PACKS

Combine our caps and t-shirts to create a variety of unique combo packs. Choose from blank or Vantage-branded bands in two colors, blue with white text or white with blue text.

SIZES TO FIT EVERY PROGRAM!

We understand that your program or event won't be successful if you can't get the sizes you need. That's why we offer a wide range of sizes for both men and women in every Vantage style. Our XS-3XL sizing for most styles allows you to purchase many of our garments for unisex wear. In our women's collection, we also offer an extensive size scale of XS-3XL to fit a broader range of women. The measurement guidelines featured here will help you verify your customer's size requirements.

HOW TO FIGURE YOUR FIGURE...

We recommend that you refer to the size scales below to best determine the sizes you need to order. These are not garment measurements, but rather body measurements that should be used to establish which Vantage size will fit you best. Our scales and overall fit closely resemble those found in the general retail market. Samples are available in all styles and sizes. We can also provide garment size specifications on request.

MEN'S

Vantage, Vansport[™] & Velocity Sizing: To determine your size, follow these simple instructions:

Neck - Measure around the base of the neck.

Chest - Measure at the fullest part of the chest, under the armpits and over the shoulder blades, keeping the tape measure firm and level.

Sleeve - Bend elbow slightly. Measure from center back of neck across shoulder, over the slightly bent elbow and down to the wrist.

Waist - Measure around the narrowest part of your waist.

	XS	SM	MD	LG	XL	2XL	3XL	4XL	5XL	6XL

Sleeve	31.5	32.5	33.5	34.5	35.5	36.5	37.5	38.5	39.5	40

Tall Sizes - Vantage adds 2" to body length, 1" to short-sleeve length and 1½" to long-sleeve length to Large, X-Large, 2X-Large, 3X-Large, 4X-Large and 5X-Large measurements.

WOMEN'S

Vantage, Vansport[™] & Velocity Sizing: To determine your size, follow these simple instructions:

Bust/Chest - Measure around the chest at the fullest point of the bust.

Waist - Measure around the narrowest part of your waist.

Hip/Seat - Measure around the fullest point of your seat while standing.

PRODUCT INFORMATION

FABRIC WEIGHT

Vantage fabric weight is described in oz./sq. yd., meaning the weight of 1 yard of 36" wide cloth. Be aware that fabric weight described in oz./linear yd. has no specific relationship to the weight of the goods if the fabric width is unknown. Our weights have been rounded to the nearest ¼ oz., with a standard industry tolerance of +/- 5%. To establish approximate grams/sq meter, multiply oz./sq. yd by 34. Vantage's #2600 at 4½ oz./sq. yd is about 155 gsm.

UV PROTECTION

All VansportTM items labeled with UV Protection have a UPF rating of 25+ (very good) to 50+ (excellent). The level of UV blocking will vary by garment color.

COLOR

Due to variations in photography light, garment colors in this catalog may not be exact. Samples and fabric swatches are available.

TRADEMARK ADVISORY
